WHAT WE DO

► Enterprise Program & Project Management Delivering complex federal IT programs using Agile and SAFe methodologies.	► Human Capital Management Supporting enterprise HR systems, workforce modernization, and business process optimization.
► Legacy System Modernization Transforming legacy applications into scalable, secure, and modern enterprise solutions.	► Cloud Adoption & Migration Supporting cloud strategy, migration, and hybrid cloud integration using AWS and Microsoft Azure.
► Enterprise Systems Integration Enabling secure data interoperability through APIs, MuleSoft, SOA, and microservices.	► DevSecOps & Agile Delivery Accelerating software delivery through CI/CD, automation, and secure development practices.
► Cybersecurity & Compliance Supporting FISMA, NIST RMF, FedRAMP, Zero Trust, and Assessment & Authorization (A&A).	► Digital Transformation Modernizing enterprise applications to improve mission performance and operational efficiency.

SUPPORTED AGENCIES

Department of Veterans Affairs (VA)

Dept. of War (DoW)

Dept. of Agriculture (USDA)

PAST PERFORMANCE

U.S. Department of Veterans Affairs (VA)

Office of Information & Technology (OIT) Corporate Portfolio

Cambrae Business Strategies supported the modernization, integration, and sustainment of mission-critical enterprise applications across the VA Office of Information & Technology (OIT) Corporate Portfolio.

PROVEN IT PERFORMANCE

- ✓ Supported the **Human Capital Management, Financial Management, Acquisition & Property Management, and Office of General Counsel** product lines by delivering enterprise program management, business analysis, legacy system modernization, application sustainment, systems integration, release management, production support, and continuous process improvement.
- ✓ Supported the modernization of the **VA Human Resources and Personnel System (HR-PAS)**, supporting a workforce of more than 350,000 employees through legacy system modernization, enterprise data migration, and application sustainment.
- ✓ Modernized legacy enterprise applications through cloud-enabled architectures, AWS technologies, and scalable digital solutions.
- ✓ Enabled secure enterprise integration using MuleSoft APIs, RESTful services, SOA, and microservices to improve interoperability across mission-critical systems.
- ✓ Applied Agile, SAFe, and DevSecOps practices to accelerate software delivery, release management, quality assurance, and continuous improvement.
- ✓ Delivered Power BI dashboards and enterprise analytics that enhanced operational visibility and supported data-driven decision-making.
- ✓ **Cybersecurity and Compliance:** Supported enterprise cybersecurity through NIST RMF, FISMA, Assessment & Authorization (A&A), federal cybersecurity best practices, and continuous compliance activities.
- ✓ Collaborated with government stakeholders and cross-functional technical teams to deliver secure, reliable, and mission-focused enterprise IT solutions.
